IFRS 13 - Fair value measurement

[Martin Svitek](#)

The training deals with fair value measurement requirements as addressed by IFRS 13. Fair value is one of the basic measurements methods of assets and liabilities. Moreover it is largely used for disclosures in the notes.

The training explains specific aspects of fair value definition and other principles of appropriate application. It analyses eligible valuation techniques, fair value hierarchy, specific requirements for valuation of non-financial assets and liabilities. Special attention is dedicated to requirements for disclosures of fair value in the notes.
